RI REALTORS®:

# Home For All

The Rhode Island Association of REALTORS® is dedicated to fostering an inclusive real estate industry through a multifaceted approach. Guided by our strategic plan, our Association's Diversity & Inclusion Committee strives to promote diversity within all levels of membership and governance.

We clearly understand the impact of fostering awareness of issues related to race, ethnicity, disability, and other protected classes. That's why we emphasize the importance of education and collaboration, while helping our members serve their diverse clientele sensitively, equally, and professionally.

## What we do for REALTORS®:

- Encourage REALTORS® to complete the Fairhaven simulation at [fairhaven.realtor](https://fairhaven.realtor) to enhance their understanding of fair housing principles and practices.
- Create educational resources and training programs aimed at increasing awareness and sensitivity when working with a diverse population, promoting inclusivity and professionalism in real estate interactions.
- Provide insight into how understanding and implementing fair housing principles not only promotes inclusivity but also reduces liability risks for both REALTORS® and their clients in real estate transactions.
- Encourage REALTORS® to share their story. Our SHARE YOUR STORY campaign highlights the significance of Diversity, Equity, and Inclusion (DEI) as well as Fair Housing practices, fostering a culture of understanding and empathy within the real estate community.
- Offer Fair Housing Resources for REALTORS® on [RIRealtors.org/Fair-Housing](https://RIRealtors.org/Fair-Housing)
